RESEARCH

Grants and Funding

External: Recommended for Funding (funding pending)

PI, “Training Analysis for Multi-team Systems Skills Training.” Army Research Institute for the Behavioral and Social Sciences (response to W911NF-18-S-0005), \$283,518 (recommended for funding; January 1, 2021-December 31, 2021; Co-PI Donald Kretz, ARA).

Category: research

Proposed effort to provide the foundation for developing and conduct initial tests of training program to support rapid assembly of MTS in which component teams come from varied organizational and operational backgrounds. Dr. Baumann is to serve as PI and MTS SME.

Co-PI, “Developing performance measures for signal crews and sections.” Army Research Institute for the Behavioral and Social Sciences (response to W911NF-18-S-0005-FY20-03), \$599,916 (recommended for funding; March 2021- February 2023; PI Donald Kretz, ARA).

Category: research

Proposed effort to develop new indicators of performance appropriate to domain and hierarchical multi-team structure of signal crews and sections. Dr. Baumann will serve as a groups / MTS SME.

External: Completed

Sponsor / lead mentor, “Problematic Drinking among Latina/o College Students: The Role of Enculturation and Traditional Gender Roles.” NIH F31 pre-doctoral fellowship via NIAAA. Budget \$65,292 (direct only). PI/mentee: Jessica Perrotte; Co-mentors Sandra Morissette, Suzy Gulliver, and Ray Garza. (Aug 2017-Jul 2019)

Category: Instructional

Provided 2 year stipend to support trainee in the conduct of longitudinal research on alcohol consumption among Latino/a college students and developing publications on that topic.

PI, “Spin, unit climate, and aggression: Near term, long term, and reciprocal predictors of violence among workers in military settings.” (W81XWH-14-1-0259). With Rebecca Weston, Daniel Beal (Virginia Tech), and Craig Bryan (Utah). Total cost \$637,443 (Sep 2014-Aug 2018).

Category: research

4 yr effort examining relations of within-person variability in emotion and interpersonal behavior, organizational and occupational variables, and regulation to workplace aggression, health, and substance use

Co-PI and multi-center coordinator for “Smoking Behavior in Hispanic College Students”. (3-phase contract, phases separately negotiated). Funded by the American Legacy Foundation by subcontract from Hispanic Association of Colleges and Universities (Total project period: Nov 2009-Aug 2012; PI Raymond Garza, UTSA Co-PI Stella Lopez).

Category: research

Total funding to UTSA = \$274,088 (By year \$78,876, \$91,750, and \$103,462).

Multi-center effort (UTSA as lead center) examining social and personality based influences on tobacco use among Hispanic college students.

Co-PI & Research Director, "Community Survey of City of San Antonio Services, 2008." City of San Antonio (Dec 2007-June 2008; Co-PI Raymond Garza)

Category: public service

Total cost \$ 50,000.

Co-PI & Research Director, "Telephone survey and focus group study of animal care services." San Antonio Area Foundation (April 2007-August 2007; PI Raymond Garza).

Category: public service

Total cost \$ 60,000.

PI, “Stress responses in high reliability occupations.” South Texas Initiative for Mental Health Research. Direct only; cost \$15,146 (July 2005-Dec 2005).

Category: research

Pilot examining interactions of genetic, personality, and situational influences on stress response among firefighters.

Co-PI, “Launching the Projects in Space Learning Experience” (July 2004- Feb 2005), NASA Center for Program/Project Management Research RA φ1-RA-04-01 Total cost \$74,831 (PI Kevin P. Grant). **Category:** research

Development and initial evaluation of a program for improving information sharing and leveraging expertise in project management teams.

Internal: Completed

PI, “Longitudinal examination of cigarettes, e-cigarettes, alcohol, and marijuana among new college students.” INTRA seed grants, UTSA. Direct cost 5,000 (Sep 2017-Aug 2018).

Category: research

Two-wave study examining changes in predictive value of motivational orientations, in-semester employment, and work-school conflict on use of the substances in the title.

PI, "Improving information sharing in decision making teams." Faculty Research Award, UTSA. Direct cost 4,426 (2004).

Category: research

Laboratory study manipulating awareness of expertise and differential weighting of expert's input, as well as different mathematical models of when expert gains influence.

PI, "Recognition and utilization of expertise in small groups." Faculty Research Award, UTSA. Direct cost 5,000 (2002).

Category: research

Laboratory study manipulating expectations regarding expertise and within-group variability in expertise and its effects on weighting of expert's input.

Internal: Infrastructure

Psychology shared research space refresh. UTSA Office of Informational Technology Academic Support Solutions fund. \$14,000 (direct only; 2016)

Category: instructional

Replaced 12 computers used in shared data collection space I administer for department and updated available software (e.g., MediaLab, Direct RT, and ePrime 3.0)

Psychology doctoral computing resources refresh. UTSA Office of Informational Technology Academic Support Solutions fund. \$12,000 (direct only ; 2017)

Category: instructional

Replaced 12 computers set aside for PhD student use and migrated licensed software required for their classes (e.g., Mplus)

Submitted but not funded in last 2 years (older submissions available upon request)

(Submitted; declined by sponsor) Co-PI / mentor, "Pro-self Motivation, Pro-social Motivation, and their Joint Effects on Deception and Information Sharing in Groups." INGRoup Small Grants program, total cost \$9,520 (2020-2021; PI James Deller, USTA).

Category: research

One-year proposed effort to tease apart various self- and self-but-social-appearing motives for intra-group behavior from truly socially motivated behavior. This was primarily an early career assistance award to Dr. Deller; Dr. Baumann was to serve in a mentoring role.

(Submitted; solicitation withdrawn) Co-PI, "Identifying Archival Indicators of Key Composition, Compilation, and Group/MTS State Variables for Predicting Performance." Army Research Institute for the Behavioral and Social Sciences (response to W911NF-18-S-0005-FY1908), total cost \$1,299,000 (2020-2022; PI Donald Kretz, ARA).

Category: research

Two-year proposed effort to develop new indicators of composition, compilation, and emergent states predicting team and multi-team system performance. Dr. Baumann was to serve as a groups / MTS SME.

(Submitted; declined by sponsor) Co-PI, "NRI: INT: Co-robot person follower social networks with emotion perception." NSF National Robotics Initiative (NSF19-536), total cost \$1,430,478 (2019-2023; PI Brian Kelley; additional Co-PIs Patrick Benavidez, Mohammad Jamshidi).

Category: research

Four-year proposed effort to enhance capacity of "co-robots" (primarily mobile assistants,

loosely akin to drones) to understand and react accordingly to emotional cues of their users.

Dr. Baumann was to serve as an SME on recognition of emotion and human subjects research

(Submitted; declined by sponsor) Co-PI, “Measures of Cohesion and Effectiveness in Small Decentralized Teams.” Army Research Institute for the Behavioral and Social Sciences (response to W911NF-18-S-0005-FY1902), total cost \$600,000 (2019-2021; PI Donald Kretz, ARA; additional Co-PI Karen Daas, UTSA).

Category: research

Two-year proposed effort to develop new indicators of group cohesion appropriate for distributed multi-team systems. Dr. Baumann was to serve as a groups / MTS SME.
