

Laboratory of Human Nutrition

Internship Opportunity

The Laboratory of Human Nutrition (Department of Health & Kinesiology) is seeking bright, talented, hard-working undergraduates to intern in our lab. Experiences in this laboratory can help advance both your academic and professional career. Our lab offers a wide variety of skills in both the community and in the laboratory. Your internship experience can include:

- Working collaboratively with an awesome group of faculty and staff
- Creation & implementation of community programs and materials (physical activity and nutrition)
- Analysis and Evaluation of community programs
- Subject recruitment in a clinical and community setting
- Learning Human Subjects testing protocols and use of lab equipment for measurements of the body (e.g. height, weight, hip & waist), body fat, athletic performance, blood & urine testing, physical activity level
- Grant Writing
- Institutional Review Board Submissions
- Learning SPSS statistical software to design databases, enter and analyze data
- Learning NVivo 9 qualitative data analysis program
- Training in Human Subjects Research & Human Subjects Ethics
- Training in Laboratory operations & safety
- Get a look into the master's degree thesis process

All candidates should have a good team attitude, a flexible schedule, and be seeking to make the most of their internship experience. This is not a paid position, but does pay with the experience you will gain and the new friends/colleagues and opportunities that will result from joining our team.

Please contact the laboratory at 210-458-7408 or email Dr. Meizi He, director, at meizi.he@utsa.edu
