One-on-One Training

One-on-One training is our most successful and highly recommended program. This program gives our clients consistent access to our Certified Neuro-Fitness Specialists who create personalized exercise programs. Our staff tracks progress by using a variety of functional scales and will refine programs as needed. This program is designed for clients who are able commit the time and resources to commuting to our San Antonio, TX facility or those who plan on long-term relocation.

**hourly rates change based on number of sessions/week**

Our Program
Beyond The Chair offers a specialized activity-based recovery program for those living with paralysis. Our Certified Neuro-Fitness Specialists utilize exercise techniques and modalities to train the body in functional movement patterns. BTC believes this approach delivers the proper stimulation to nerves, muscles, bones and joints to achieve the highest functional outcome and recovery possible.

Ultimately our focus is geared towards meeting the needs and goals of our clients in an environment filled with inspiration, hope and determination with a supporting cast of friends, family and community all working together towards our mission!

Our Mission
Beyond The Chair exists to provide an improved quality of life for individuals with spinal cord injuries and other neurological disabilities through intensive activity-based recovery programs.

We Provide Service For The Following Conditions:

<table>
<thead>
<tr>
<th>Condition</th>
<th>Condition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spinal Cord Injury</td>
<td>Spina Bifida</td>
</tr>
<tr>
<td>Traumatic Brain Injury</td>
<td>Rett Syndrome</td>
</tr>
<tr>
<td>Post Stroke</td>
<td>ALS</td>
</tr>
<tr>
<td>Multiple Sclerosis</td>
<td>Fibromyalgia</td>

Our Training Consists Of The Following:

- Neuro Muscular Development
- Load bearing/Closed chain activities
- Strength training
- Core strength/Balance training
- Gait training
- Active/Passive Range of Motion
- Flexibility
- Functional Electrical Stimulation (FES) training

Program Benefits
- Improved circulation and blood pressure
- Improved cardiovascular endurance
- Maintenance of bone density
- Increased muscle mass and strength
- Improved range of motion
- Reduced muscle spasms and spasticity
- Improved sensation/temperature control
- Improved mobility and ability to function independently
- Potential to reduce pain and depression

This program is not to be confused with physical or occupational therapy, as for it is a post-rehab program specifically designed to complement and improve the client’s level of function after discharge from rehab services. Beyond The Chair does not purport to provide any aspects of treatment or diagnosis of our clients’ medical conditions. Our program is a supervised safe and effective functional exercise program. We strongly believe that our activity-based recovery program is a great approach to bridge the gap between healthcare and fitness.
